

# Abdulrasheed Ibrahim

<https://www.abdull.dev>

A fullstack developer, skilled at writing high-quality codes in line with the latest technological advancements. Deeply knowledgeable in Data Structure, Software Architecture, Test Driven Development, and Agile methods. Seeking opportunities to create something beautiful with people who bring out the best in me.

## EXPERIENCE

### June 2022 – present **Technical Officer / Team Lead**

Zarttech B.V., Netherlands

- Do code reviews, and accept/reject pull requests.
- Interviewed hundreds of candidates for placement in different roles.
- Trained and mentored apprentices and specialists.
- Provide guidance and help developers solve complex problems.
- Design high-level software architectures and build teams around several projects.
- Advise clients and management on the choice of Technology Stack for new projects.
- Provide clients and management with updates regarding project progress.
- Identify skill gaps in developers and recommend ways of improvement and organize training when necessary.
- Train Technical Recruiters about various Tech Stacks in different domains.
- Manage the Organisation's code repositories and cloud services (Azure, Github, AWS, etc).
- Writing original code challenges on Coderbyte, TestGorilla, and CodingGame to help recruiters screen candidates for Technical Interviews.

#### Key achievements:

- I Implemented processes that improve team efficiency and productiveness.
- I Trained 2 Junior developers over time, making them transition into mid-level devs.
- I interviewed hundreds of candidates to assess their technical expertise in various programming languages and frameworks; 83% of those I approve were placed.
- Discovered key issues that lead to a security breach on a client's project.
- Received a Leadership Award for the Zarttan embracing leadership and the challenges that come with it.

### Sept. 2021 – June, 2022 **Mobile Application Developer**

Zarttech B.V., Netherlands

- Built cross-platform mobile applications for iOS and Android.
- Maintain existing react-native projects.
- Upgraded all packages and react-native version from 0.52 to 0.68.
- Refactored a react-native project from working with Class-Based fashion to Function-based.
- Report updates to the team lead and product owner.
- Built a KYC app that works with face detection and performs face identification for internal project.
- Configured CI/CD pipelines to automate building and publishing apps.
- Used React Native CLI, Expo, AppStore Connect, AWS, Firebase, PlayStore Console, Azure AppCenter, Azure, DevOps, Web3js, React, Redux, ImmerJS, NodeJS, Deno, Immutablejs.

#### Key achievements:

- Delivered quality applications that made our client happy to renew his contract.
- Designed and Implemented the KYC mobile app.
- Received the Rising Star Award for "the best newcomer within Zarttech with the most impact".
- Received an MVP award for "the most valuable person breaking new milestones".
- Got Promoted to the Position of a Technical Officer / Team Lead

### March. 2021 – Sept. 2021 **Team Lead / Senior FullStack Developer**

AlphatechHub Integrated Services, Abuja Nigeria.

- Single-Handedly built the application's backend that supports the company's cryptocurrency mining rigs.
- Create, Sign, and Broadcast Bitcoin and Ether transactions on the blockchains using Python and Django.
- Listen to WebHooks and intercepts balance changes in user wallets in other to notify them about deposit or withdrawals via push notifications and SMS.
- Contributed to several other projects.
- Worked with Django, Channels, React, React Native, Redux, OneSignal, Blockchain, Web3, Block.io.

### March. 2020 – Feb. 2021 **FullStack Developer - Mobile and Web**

Carilo. Lagos, Nigeria.

- Used Django and Django Channels to create a module responsible for broadcasting when there is a new bid on a package.
- Single-handedly created the mobile application for both iOS and Android using React Native and Expo.
- Implemented the design of the product's landing page using React.
- Worked with Django, Channels, React, React Native, Redux, and the Context API.

### Feb. 2017 – March. 2020 **Fullstack Developer**

Bitpoint Limited. Yola, Nigeria.

- Worked on building a multi-tenant SaaS Solution used by different schools in Nigeria.
- Scaled the product on AWS using ELBs, EC2s, and Lambdas.
- Trained several Junior Developers, IT Students, and Interns.
- Worked with Django, Channels, React, Redux, WebRTC, WebSocket, Redis, RabbitMQ, SNS, SQS, Flask, FastAPI, Nginx, Apache, Unicorn, etc.
